_____ Initial

Article Six: Joinder Agreement Revocation and Withdrawal

- A. Each donation for the benefit of a Life Beneficiary shall be made pursuant to a Joinder Agreement or other transfer instrument acceptable to the Board of Trustees. All Joinder Agreements must incorporate this Agreement by reference, and shall be consistent with the provisions of O.C.G.A. §30-10-1 *et seq.*
- B. All Joinder Agreements or other transfer instruments conveying assets shall be in-evocable.
- C. All Joinder Agreements or other transfer instruments conveying assets belonging to a Life Beneficiary, or to the spouse of a Life Beneficiary, shall be subject to the provisions of 42 U.S.C. § 1396p(d)(4)(C). Sub-accounts representing assets which belonged to a Life Beneficiary, or to the spouse of a Life Beneficiary, may only be withdrawn by the Advisory Co-Trustee if such assets are distributed by the Trust to another trust which requires the reimbursement of all state(s) having provided medical assistance to the Life Beneficiary, as provided in 42 U.S.C. § 396p(d)(4)(C).

Article Fourteen: Termination and Dissolution of Trust

- A. The Settlor and the Board of Trustees intend the Trust to be a perpetual charitable entity. However, they also recognize that the laws and practices of our culture may change with time. Therefore, if the Settlor determines for any reason that it is not in the best interest of the Life Beneficiaries to continue the Trust, including, without limitation, a determination that the assets of the Sub-accounts may be or become liable for the basic support of the Life Beneficiaries who would otherwise be eligible for government or other benefits, then the Trust may be terminated and dissolved, and the assets distributed according to the provisions of this Article.
- B. Upon the termination or dissolution of the Trust for any reason, the assets of a Sub- account of a Life Beneficiary which was funded with assets which belonged to the Life Beneficiary must be distributed to a Trust of which the Life Beneficiary is the sole Life Beneficiary, which provides Supplemental Benefits only, and which is specifically obligated to enforce both the state reimbursement provisions of 42 U.S.C. § 1396p(d)(4)(C) and the interests of any final Remainder Beneficiaries listed in the applicable Joinder Agreement, if any.
- C. Upon the termination or dissolution of the Trust for any reason, the assets of a Sub- account which was funded solely with assets which did not belong to the Life Beneficiary must be distributed to a Trust of which the Life Beneficiary will be the sole Life Beneficiary, which requires that the assets be used to provide Supplemental Benefits only, and which recognizes the rights of final Remainder Beneficiaries listed in the Joinder Agreement, if any.

14. Definitions

Beneficiary – The Beneficiary of the trust is the person for whose benefit the trust was created; however, the Beneficiary does not own the funds in the trust. The Trustee (see Trustee) holds the legal title of the trust funds for the benefit of the Beneficiary and acts at the direction of the Trust Administrator (see Trust Administrator). Although the Beneficiary, or someone acting on behalf of the Beneficiary (e.g., designated Advocate), has the right to request disbursements to vendors, the Trust Administrator is not required to approve the request. At the same time, however, the Trust Administrator has a responsibility to ensure that the trust funds are available for supplemental needs that will improve, to the extent possible, the quality of life of the Beneficiary.

First-Party Pooled Special Needs Trust – Self-funded by the individual with special needs as a result of a personal injury award, Social Security back payment, direct inheritance, or other reason. For a Beneficiary who receives Medicaid, this is a Medicaid payback trust. Upon the death of the Beneficiary, Medical Assistance Services will be repaid for its expenditures during the Beneficiary’s lifetime. This type of trust must be irrevocable by law.

Grantor – The person who establishes the special needs trust and is generally the person whose assets fund the trust.

Irrevocable Trust – Refers to any trust which cannot be undone or changed. The Pooled Special Needs Trust is irrevocable by law. An irrevocable trust is a legal agreement whose terms cannot be changed by the creator, or grantor, who establishes the trust, chooses a trustee, and names the beneficiary or beneficiaries. The trust document names a trustee who is responsible for managing the assets in the best interests of the beneficiary or beneficiaries and carrying out the wishes the creator has expressed.

Joinder Agreement – The legal document that allows the Beneficiary to have a sub-account with a Pooled Special Needs Trust. The Joinder Agreement for GCT of BDI needs to be completed and notarized.

Letter of Intent – The Letter of Intent provides Pooled Special Needs Trust Advisory Co-Trustee’s the opportunity to elaborate on his/her vision and goals for the trust and to share with the Trustee information about the Beneficiary which can include special interests, likes and dislikes.

Master Trust Agreement – An arrangement where a trust company acting as the Trustee manages individual special needs trusts under the umbrella of a “master” or large trust fund.

Official Trust Name: _____

Medicaid – A health care program run by state governments available to those who have special needs and meet financial eligibility requirements (rather than recipient age requirements). Maintaining eligibility for Medicaid is a central focus of special needs trust administration.

Medicaid Payback – This applies only to the First-Party Pooled Special Needs Trust. In order for a Beneficiary of a First-Party Pooled Special Needs Trust to have funds in a trust, federal and state law requires that upon the Beneficiary's death, the state or states will have a claim against the trust for any money that the state or states' Medicaid program has paid out on his or her behalf that is not retained by a nonprofit organization. It is important to note that the Third-Party Pooled Special Needs Trust does not require a Medicaid payback upon the Beneficiary's death.

Medicare – A health care program operated and funded by the federal government for senior citizens, people 65 years of age or older; and people with specific disabilities.

Pooled Special Needs Trust – A special needs trust that is administered by a nonprofit organization, and whose funds are pooled for investment purposes and to keep administrative fees low. Financial records for each sub-account are maintained by the Trustee (GCT of BDI).

Remainder Beneficiaries

the person or entity that is entitled to receive the property in the trust after a life interest in the trust property has ended. Also called "remaindermen."

Sole Benefit – Any distributions from the trust must be for the sole benefit of the Beneficiary, the person for whom the trust is intended to benefit. If a trust provides benefits to other persons, then it will not be considered a special needs trust, it will become a countable resource, and the Beneficiary may lose SSI and/or Medicaid benefits.

Successor and Contingent Beneficiaries – The Grantor(s) designate Successor and Contingent Beneficiary(ies) on the Joinder Agreement. This information can be updated by the Grantor at any time. The Successor Beneficiary(ies) receives the percentage the Grantor stated on the Joinder Agreement. Sometimes a Successor Beneficiary dies before the Beneficiary. If a Contingent Beneficiary is named, that share will be distributed to that Contingent Beneficiary(ies). If no Contingent Beneficiary is named, the share of the Successor Beneficiary who died before the Beneficiary will be divided amongst the other Successor Beneficiary(ies). An individual or charity can be named as a Successor Beneficiary and/or Contingent Beneficiary. Naming GCT of BDI as a Successor Beneficiary and/or Contingent Beneficiary, supports the organization's mission to serve people with disabilities.

Official Trust Name: _____

Supplemental Security Income (SSI) – This Federal benefit program is available to low-income individuals who are disabled, blind, or elderly and have limited income and few assets. SSI eligibility rules (no more than \$2,000 in assets) form the basis for most other government program rules and are the central focus for special needs trust planning and administration.

Third-Party Special Needs Trust – Established for a Beneficiary with special needs is funded by a third party (the Grantor) who is typically a family member or friend, and can be coordinated with an estate plan, life insurance policy, or other qualified plan. This type of trust is sometimes referred to as a Supplemental Needs Trust, Purely Discretionary Trust or a family-funded special needs trust. Third-party trusts are irrevocable once funded, but remain revocable until funded or until the death of the person making the will or trust.

Trust – A trust is an arrangement by which a person makes a financial gift to a Trustee to be used for the benefit of the Beneficiary.

Trust Administrator – A non-profit organization, such as GCT of BDI, that administers pooled special needs trusts. The Trust Administrator directs the distributions and administrative issues of the trust.

Trustee – GCT of BDI, trustee, has the responsibility to manage and invest the trust funds. The Beneficiary does not own the funds in the trust. The Trustee holds the legal title of the trust funds for the benefit of the Beneficiary. The Trustee acts at the direction of the Trust Administrator.
